

Agent Status - Tab Translations

This TAB is used to store the agent statuses in different languages, so that when switching to another language, the agent status is displayed with the corresponding text.

A [logout](#) and login is required after changing the language. Otherwise, the status names will be displayed in the language used before the change.

 Edit Agent Status "Calls and Media"

Master Data

Translations

Language	Status (long)	Status (short)	Status (abbreviation)
