Allocate routing

Now, you assign the application to a service number.

1. Choose **Number Management - Service Numbers** in the menu.
2. Click on **Edit** in the row of the number you wish to use.
3. Select the **Routing** tab.
4. Choose your routing application in the drop down list.
5. Make sure, that the service number is **Active** in the *Options* section.
6. On the tab **Parameters** choose the language for the prompts.
7. Save the entry.
