ACD-TAC-001 - ACD Transaction Code Report and variant

Description

This report indicates which transaction code was set for which call. Therefore, additional information like call data, ACD Group information of the call, time of the setting of the transaction code as well as the corresponding agent, who set the transaction code, is put out.

Settings of the Report

In addition to the standard settings "Output format" and "Period", the following additional settings are available

Selection Criteria

Criterion	Description
Period	Call Start (dtCallStart) within the indicated time intervals.
Transaction Codes	Transaction Codes set for the call

Columns

Name		Value
Calls	Date / Time	Start Date of the call
	Start	Start time of the call
	Agent Call Start	Start time of the call to the agent
	ACD-TAC-001-02-ONLY	

	Agent Ringing	Ringing time at the agent
	ACD-TAC-001-02-ONLY	
	Agent Call Connect	Time at which the call is connected to the agent
	ACD-TAC-001-02-ONLY	
	Agent Call End	Time at which the call with the agent is ended
