

PIN Statistics

Each of the PINs can be evaluated statistically.

Use **Statistics - Reports** in the main menu. In the table of reports you will find a row **PIN Statistics**. Use **Execute** to open a form in which you can select parameters to customise the report. Depending on the actual report the parameters required may vary.

Make the required settings and click on **Execute**. The report is prepared and delivered to the browser as a download.

Alternatively, you can use **Subscribe** to request delivery of the report at regular intervals to you email address.
