

Table Reference - StatisticsPartIVR

Contents

An entry is made to this table, every time an IVR Statistics Marker is recorded.

Fields

Field	Type	Meaning
ID	INT	A unique ID given to each record.
StatisticsPartAID	INT	The ID of the StatisticsPartA entry for the call to the IVR.
IVRStatisticsMarkersID	INT	The ID of the IVR Statistics Marker which was recorded in the IVR application.
dtCreated	TIMESTAMP	The date and time the marker was created.
Rating	INT	The rating given by the caller to this IVR statistics marker. If no rating is associated, then this value will be NULL.
