

CRM+ Configuration in the jtel Portal

Client Master Data

The next step is to configure access to the CRM+ system in the jtel portal.

Access the Client Master Data settings, and switch to the tab CRM+.

REST API

CRM+ URL :

User Name :

Access Key :

The following data is required:

Setting	Explanation
CRM+ URL	The URL of the CRM+ system including the suffix to the REST API. For example: https://mycompany.brain-app.com/webservice.php
User Name	The user login name of the CRM+ account to be used by the jtel system.
Access key	The access key retrieved as described here: CRM+ First Steps
